Dear friend Roger,

It was truly my good fortune to sit-in on your mountain making educational session at the L.C.C.A meet. I left with a new enthusiasm returned home and spent quite a bit of time on your web site and other sites you recommended. Your product is the major league product every model railroader dreams about.

Was so kind of you to patiently pass along your model knowledge to your fellow L.C.C.A members, I believe all in attendance were truly enthralled with your artistic presentation. Since I am new to the membership I hope to return to the annual meetings in years to come. Perhaps future membership meetings would take place in the heartland of America, the Board of Directors may wish to consider Cincinnati, Ohio / Pittsburgh, PA or Central Indiana. There is no doubt I would enjoy volunteering my time for the benefit of the L.C.C.A at future meets as time and travel allows.

Would seem now with the uncertainty of the economy in the States will dictate the enthusiasm to a certain extent of the Lionel faithful.

Your kindness and courtesy extended to me is truly memorable and always appreciated.

Perhaps one-day I will enjoy one of your custom lay-out(s) for my own model "road".

Thank you. Warmest regards !

Sincerely yours,

Roger A. Peet #29971
