Importance: High

Attachments: Trainworxx Munoz Station.jpg

Dorcie and Roger,

Happy Holidays and Happy New Year.
Thank you for the glorious Holiday ornament.
It is happily swinging from our Hannukah bush.

Oh, by the way . . .

We received the Albuquerque Station #1 last week packed perfectly and in perfect condition.

We were surprised by the station.

We expected a wonderful station and received the most amazingly beautiful station we have ever seen.

I adore the station and could not be happier.

It is a masterpiece.

I am immersed in the construction of the scene around the station and will be happy to share my professional photography of the station for you and Roger to use in any and all advertising you wish. You will have full photo rights. I am doing this because you were kind enough to reletter our station. The enclosed photo shows the basic scene which has a ways to go before it is finished. You'll be seeing this scene again. I promise.

Boy, are we happy !!!

Love ya,

Eliot and Ginny
