Layout Assessment Questionnaire

Please complete this questionnaire completely, to the best of your ability. This will help us better understand the layout and allow us to prepare for our upcoming visit.

Name: _____

Mailing Address: _____

Mailing Address 2: _____

City, State, Zip: _____

Daytime phone (with area code): _____

Email Address; _____

Best time to reach you during the week: _____

Who built your layout? (yourself or a custom layout builder) _____

What is the approximate size of the layout? (square footage)? _____

If your layout is such that it is not easy to determine the square footage, please provide a rough sketch showing the estimated dimensions of the layout and attach it to this document.

If you have a track plan of the layout, please send a copy of it with this document. (its okay if you sketch it by hand! It does not need to be to scale)

What track does the layout have? (Lionel fastrack, Gargraves, MTH, etc.) please list all that apply if you have multiple brands of track: _____

What is your minimum and maximum diameter track on the layout? (i.e. O31, O96, O54, etc.)

What type of control system are you using? (TMCC, Legacy Lite, Legacy, DCS, Conventional)

(Please list all that apply): _____

Where is the layout located? (spare bedroom, basement, detached building, etc.)

What transformers are you using to power the tracks? (poswar ZW, ZW-C, ZW-L, Z-4000, etc.)
(Please list all that apply, including any control devices such as Powermaster, TPC, TIU, etc.)

Does your layout have multiple levels? (tracks that cross over one another) if so, how many levels? _____

Does your layout have a yard? If so how many tracks?

Does your layout have operating accessories? (If so, approximately how many):

How many separate transformers do you use to power your accessories? (what types)

Are you currently experiencing any problems on your layout that have yet to be resolved?
(If so, please explain, in detail what this problem(s) are):

Is there anything about your layout you are dissatisfied with? If so, please explain:

Any photos you can provide of your layout would really assist us in fully understanding the size and scope of your layout and better prepare us for our assessment.

Please feel free to ask any questions or if you are uncertain about anything, please do not hesitate to call Mike Reagan directly at (330) 519-4831.

We look forward to speaking with you about this layout assessment visit!
